Training

Lovely Professional University (Center for Professional Enhancement) **June 2025 - July 2025**
Fundamentals of Data Structures: Learn, Apply and Build Projects

- Gained hands-on experience with Data Structures using Java, including arrays, linked lists, stacks, trees, and graphs.
- Learned and implemented core DSA algorithms such as searching, sorting, and recursion in real academic projects.
- Developed a practical Java-based project applying data structures and algorithms to solve real-world problems.
- Improved problem-solving, analytical thinking, and coding efficiency through structured exercises and project work.
- Built a strong foundation to apply DSA knowledge in competitive programming and software development scenarios.

Projects

Sudoku Solver with Backtracking | *Java, Swing* **June 2025 - July 2025**

- Developed a Sudoku game with GUI and 3+ difficulty levels using Java programming concepts efficiently effectively.
- Implemented validation, undo, hint, reset options with 4+ optimized logic handling features smoothly successfully.
- Integrated an auto-solver using backtracking algorithm achieving 95% efficient solving with coding techniques.
- Enhanced user experience timer to track puzzle completion time, improving player engagement by 30% consistently**.**
- GitHub Link: **https://github.com/nishanthreddy16/SudokuSolver**

Book Your Show – Front-End Web App | *HTML, CSS, JavaScript, VS Code editor, Git* **February 2025 – March 2025**

- Developed a responsive web app for booking movie tickets with dynamic seat selection and timings with updates.
- Designed an intuitive UI using HTML and CSS for smooth experience with 3+ responsive layouts and modern practices.
- Implemented interactive features and validations with JavaScript, reducing errors by 40% and improving usability.
- Managed project versioning and collaboration using Git in a team environment very efficiently effectively successfully.

Certificates

- **Fundamentals of Data Structures –** *Center for Professional Enhancement (LPU)* **July 2025**
- **C Language –** *Neo Colab* **May 2024**
- **Python 101 for Data Science –** *Cognitive Class (IBM)* **April 2024**
- **Python Programming –** *iHUB DivyaSampark, IIT Roorkee* **March 2024**
- **Responsive Web Design –** *freeCodeCamp* **October 2023**

Technical Skills

- **Languages:** Java, Python, C, SQL
- **Frameworks**: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, PyTorch, TensorFlow
- **Tools/Technologies** : Version Control (Git, GitHub), Jupyter Notebook, Google Colab, Tableau
- **Skills :** Data Structures and Algorithms, Operating Systems, Networking, Design Patterns, DBMS, SQL, Machine Learning, Natural Language Processing

Education

Lovely Professional University **2023 – 2027**
B.Tech in Computer Science and Engineering *Jalandhar, Punjab*

Sri Chaitanya Junior College **2022 – 2023**
12th with Science – Percentage: 97% *Khammam, Telangana*

KPR Gowtham School **2020 – 2021**
10th Class – Percentage: 100% *Sathupally, Telangana*
